FightReg · Lehnert-Advisory · fightreg.org

Simple and secure

RUNS EVERYWHERE

- Runs directly in the browser on PC, tablet and smartphone
- **No installation — just open it and go**
- Ten languages — printouts follow the language of the event
- Your club and participant data stays protected

AFTER THE COMPETITION

- Results, placements and rankings are available immediately
- Certificates, lists and notices are ready to print
- Your data can be exported at any time

JUST ASK INSTEAD OF SEARCHING

- Ask FightReg in normal language instead of clicking through filters
- For example: “Which fighters are still missing at check-in?” or “When is Miller up?”
- AI-assisted — without complicated controls

For everyone who runs a competition

COACHES

Your whole team entered in minutes. FightReg creates bib numbers and athlete cards automatically.

ORGANISERS

Schedule, mat areas, check-in, brackets, call-ups — one state everyone can see.

FEDERATIONS

Several organisers, several events — clearly defined who may see and edit what.

No spreadsheets.
No paper slips.
Nothing entered twice.

FightReg

THE WEB APP FOR SPORTS COMPETITIONS

From the announcement to the certificate. One system.

Registration, invoicing, competition day and results in one place. No duplicate lists, no paper chaos.

fightreg.org

REGISTRATION WITHOUT LIST CHAOS

- Coaches can enter whole teams at once; athletes can also register themselves
- Age and weight classes, categories and multiple starts are handled directly
- FightReg checks entries and points out missing or incorrect information
- Fees, discounts and entry charges are applied automatically

AUTOMATIC INVOICING

- Invoices are created directly from the registrations
- Receipts and documents use your own letterhead
- You can see at a glance which club has already paid

Entered once,
right everywhere.

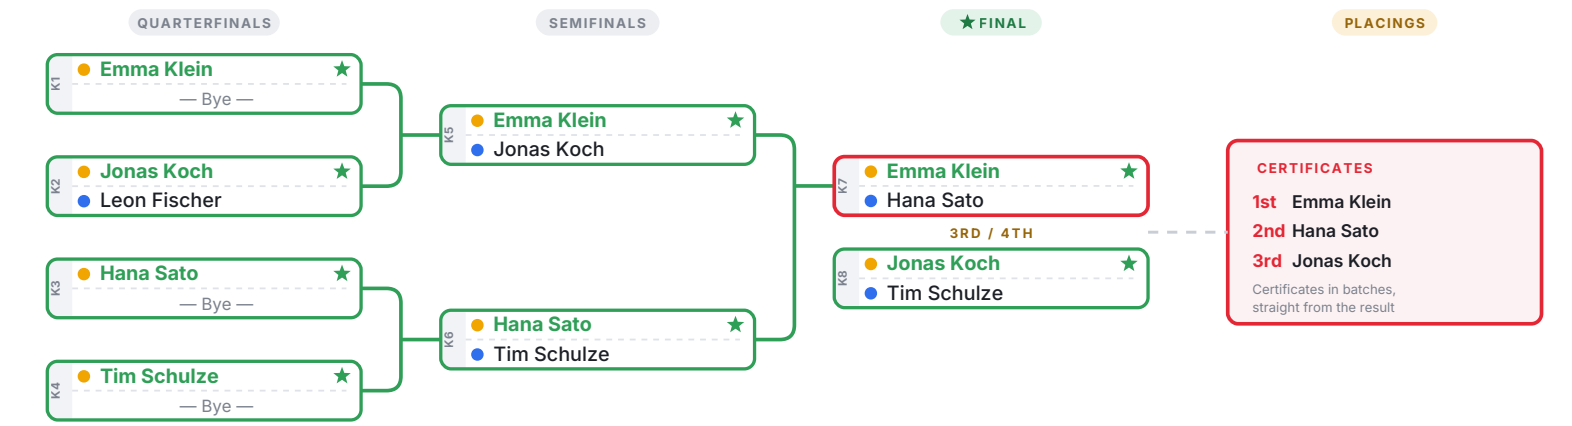

COMPETITION DAY UNDER CONTROL

- Check-in with bib numbers, athlete cards and QR codes
- Brackets, fight order, scoring sheets and mat areas in one place
- Referees enter their scores on their own phone — no app to install
- Athletes get a push notification in good time, so they do not miss a call-up or start
- Medical certificates and waivers are filed centrally and always at hand
- Call-ups, announcements and a live board for spectators
- Entering a result updates the bracket immediately

FOUR TOURNAMENT SYSTEMS — YOU CHOOSE PER CATEGORY

- Single elimination — the classic bracket, with byes and a bronze match
- Double elimination — one loss and you carry on in the losers' bracket
- Round robin — everyone against everyone, a table instead of a bracket
- Swiss system — a fixed number of rounds, pairings by score

The bracket, as the hall sees it

One result entered moves the bracket on — in the hall, on the spectator screen and in print.

EVERYONE KNOWS WHAT IS HAPPENING

- Spectators see the venue plan, current fights, upcoming order and results
- Coaches and staff work with the same up-to-date information
- Roles make sure everyone sees and edits only what they need for their task

The bracket above is single elimination with byes and a bronze match — double elimination, round robin and the Swiss system are equally available.

SPONSORS

- A sponsor banner on the venue plan shows the logos one after another — one spot, any number of partners
- You set how often each sponsor appears per cycle
